

INVITATION ARKAD 2021

17TH -18TH OF NOVEMBER

You are officially invited to ARKAD, one of Scandinavia's largest career fairs, taking place this year on the 17th - 18th of November.

ARKAD is the annual career fair arranged by the Student Union at Lund University, Faculty of Engineering. We are proud to be one of the largest career fairs in Scandinavia and to offer your company the opportunity to interact directly with more than 9000 of our ambitious, forward-thinking and skillful engineering, architecture and industrial design students. In conjunction with the fair, you are also invited to showcase your company with personalized events, curated and developed alongside you to meet your organisation's talent acquisition goals.

Due to the uncertain effect of Covid-19 upon the fair in November, this year's ARKAD is arranged digitally first. However, based on feedback both from students and companies wishing for a physical fair, a final decision on the fair's format will be made once the Complete Registration opens later in August.

In the registration form, you are able to show whether or not your company is interested in participating in a physical fair, if the situation regarding the pandemic allows for it. Our team is working exceptionally hard to give you as well as our students the best experience possible, while ensuring health and safety for all participants. If your organisation cannot partake physically this year, we are very much looking forward to your participation through our digital platforms at a discounted rate.

The application for the fair opens today on April 12th, and you are welcome to register your company! For more information on ARKAD and how to register for the fair, please visit www.arkadtlth.se. More information regarding the fair's development will be published continuously on our website and social media channels. Follow us on LinkedIn to stay in the loop!

The ARKAD project group and me are looking forward to seeing your company at the fair this November!

Best regards,
